The County Drainage Authority would like to relocate the outlet of County Ditch 64 and replace an existing 60” culvert with a 72” culvert that will be placed diagonally across the intersection of Unit Avenue and 85th Street.

The permit did not indicate the size of the culvert, but draft construction plans showed a 72” culvert. Also, the permit did not indicate a new 42” culvert crossing 85th Street, but the draft construction plans did. Neither of the proposed culverts meet the Buffalo Creek Watershed District’s requirement of a 3/8” coefficient.

Eberhard recommends no action at this time based on some unanswered questions. The Board invited Lisa Odens from HEI to comment on the application. Odens explained both the project and the justification for the various culverts and culvert sizes. Commissioner Krueger commented on the need for the project. Manager Phillips commented on the public safety need for the project.

Manager Phillips updated the Board on the availability of Collins Tree Service to remove snags from the creek over winter.

There being no further business to come before the Board, upon motion duly made, seconded and unanimously carried, the Board of Managers adjourned the meeting until the next regular meeting of the Board of Managers on Tuesday, October 27, 2020, at 8:00 p.m. in person in the Board’s meeting room in the Glencoe City Center with an option for attendance and participation by alternative means as provided by Statutes Section 13D.021.
